

Technical Specification

	42CG2I 42CG3I 42CG4I 42CG5I 42CG6I
Energy Efficiency Class (SDR)	F
Power consumption (SDR)	48 W
Screen resolution (pixels)	1920 x 1080
Screen Size (diagonal)	106 cm / 42 inches
RF	75 ohm Antenna / Analog / DVB / Satellite
Inputs	3 x HDMI, 2 x USB, 1 x SCART, 1 x RJ45 LAN/Ethernet, 1 x Composite/CVBS Video & Component/YPbPr Input, 1 x L/R Audio input for Composite/CVBS & Component/YPbPr
Sound Outputs	1 x Digital Optical Audio output, 1 x 3.5mm Headphone
WiFi frequency range	2412 - 2472 MHz
WiFi transmit power (max)	18.4dBm EIRP (69.2 mW)
Speaker*/ Amplifier Watts (RMS)	2 x 10 / 2 x 8
Voltage and power consumption	AC 220V ~ 240V; 50Hz 48/70/90W (home mode/standard/max) (<0.5W in Standby)
Dimensions including stand (mm)	952W x 575H x 185D
Net weight (Kgs)	6.7
Wall Mounting	VESA 200 x 200 (mm)

*Built-in **Harman Kardon** speaker systems (Full-range speaker and tweeter).

Quick & easy guide for setting up your TV

What is included in the box

Using the remote control

Setting up the TV for the first time - including attaching the stand

Connecting other devices to the Television

Need help setting up or using your TV?

Please contact the UK & ROI Helpline*

Telephone UK 0330 024 0803 or ROI 01443 3323

Online support at: www.umc-uk.co.uk

Email support at: service@umc-uk.co.uk

*Calls to 0330 numbers are charged at standard call rates and are included as
part of any bundled minutes with your phone provider.
Calls to the ROI number are charged at the local call rate.
The telephone opening hours are:

Monday to Friday: 8.30am – 6pm
Saturday: 9am – 5pm
Bank Holidays: 10am – 4pm

Closed Christmas and New Years day.

Sky Remote Code

If you wish to use your Sky remote to operate the TV's basic functions, you will need a Sky remote control (Revision 9 or later) and you will need to program it with the code 2134. If you wish to use your Sky Q remote to operate the TV's basic functions, you will need to program it with the code 4170.

Please save your box/packaging as you will need this in the event of warranty/service repair or support. We are unable to carry out warranty/service if you are unable to package it correctly. The safest way to package your item in the event of warranty/service repair is in it's original box/packaging.

If you decline an upgrade, you will not be able to access content that requires the upgrade.

To receive Freeview channels, in particular Freeview HD channels, you will need a Digital TV aerial and be in a good Freeview coverage area. You can check coverage for your postcode at www.freeview.co.uk. Please note that any Freeview HD channels found during tuning will be placed in channel positions above 100. For example, 101 (BBC1 HD), 102 (BBC2 HD) etc.

Your TV has a built in Personal Video Recording function, meaning you can set up recordings from the TV guide directly onto a PVR ready USB memory stick. You can also pause live TV and rewind/fast forward through your recordings. See our great range of tested and compatible PVR ready USB memory sticks at www.umc-uk.co.uk/usb

USB Memory sticks for recording from Freeview TV

If you don't have the RF cable shown below, then you can purchase one from www.umc-uk.co.uk/cables. If you are intending to connect your TV to an RF socket in order to receive Freeview you will need this cable.

Additional Accessories

- 1 x Quick Start Guide
- 1 x Stand Installation pack
- 1 x Safety Leaflet
- 1 x Remote Control & 2 x AAA Batteries

Included with this TV are the following accessories

What is included in the box

To restart the current chapter
To advance forward to the next chapter
To stop the playback/Eject Disc
To play in fast forward mode
To play in fast forward mode
To play/pause
To program it with the code 4170.

Setting up the TV set for the first time

To obtain a copy of your Operating Instructions, please go to: www.umc-uk.co.uk/instruction-manuals/sharp

1 Fitting the stand

TV panel must be facing downwards.

For the stand installation, there is one type of screw provided as shown below.

To complete the stand installation you will require a cross head screw driver.

Place the TV set on a flat and clean surface with the panel facing downwards to avoid damage.

4 x 

Used for attaching the stand to the TV set (fig.2)

1

Place the TV set on a flat and clean surface with the panel facing downwards to avoid damage.

Back/Shortest

Front/Longest

2

When the stand feet are installed correctly the stand feet will be longest at the front of the TV and shortest at the back with the feet pointing away from each other.

3

When the stand/feet are in the correct position, secure the feet to the underside of the TV set using 4 screws provided.

Terms and conditions apply. Online registration only.

2 Connecting your set

Outdoor Digital TV Aerial

- 1) Connect the TV to your power socket.
- 2) If you wish to use the TV to receive Freeview/Saorview channels, connect the RF input from the TV to your outdoor Digital TV aerial. If you do not wish to receive Freeview/Saorview, skip this step.

3 Powering On the TV

TV Control Stick

Switch on the television by pressing the TV control stick located on the TV set.

Remote Control: Installing Batteries

Insert the batteries supplied into the remote control and press the standby button to power on the TV.

Wall Mounting the TV

Image for illustration only.

1. Remove the four screws that are supplied in the wall mounting holes.
2. The wall mount can now be easily attached to the mounting holes on the rear of the TV.
3. Install the wall mounting bracket to the television as advised by the bracket manufacturer.

The picture shows the use of spacers, which are not applicable to all sets/installations.

4 First time installation

Basic installation steps are shown below. These may vary slightly depending on model.

1

Introduction

When the set first turns on, it enters the First Time Installation mode. This can be restarted by restoring the set to default settings in the 'About TV' Menu.

Note: In home mode, the TV will switch off automatically after 4 hours in the event that no buttons are pressed on the TV or remote control. (You can change this by pressing the [MENU] button and then selecting Settings>Time>Auto Standby)

2

Languages

Select your preferred on-screen display language. This will change the language in which the menus and associated information is displayed in. When set up has been completed, to change this press the [MENU] button and then select Settings > System Menu > Language

3

Country Selection

Select the correct flag for the country in which the set will be used in. This will enable the set to correctly install the functions applicable in the country of use.

4

Environment of Use

Home Mode: For normal use, by default it is set to a power saving mode which reduces the energy used by up to 25% (by reducing the power to the LED/LCD panel). This can be changed in the picture mode settings.

5

Network setup

You can connect the TV to your broadband router or wireless network in order to take advantage of the Smart functions. If you connect the TV to your router using an Ethernet cable (recommended) this step will be skipped.

6

Set Up Netflix

If you have a Netflix account, it can be set up on the television here. Once set up and validated, the First Time Installation returns to the next step.

7

Default Source

Select the source which you use the most. If Digital TV (Freeview) is chosen, then at the next step, the set will tune in and default to Digital TV (Freeview). If one of the other sources is selected, then the set will not tune in at this stage and default to that input. If it is required to tune the set in later, press the [MENU] button and then select Settings>Channels

8

Tune in Channels

Choose to install terrestrial channels now or later.

9

Support Advice

Information regarding support is displayed for a little while. Tuning continues and a progress bar is shown with the number of channels found indicated below.

If you are picking up signals from more than one transmitter, you will be requested to select your primary and secondary regions.

Connectivity

A	Ethernet/LAN*	Network connection	H	SAT In	Satellite Input
B	Digital Audio	Digital Optical Audio Output	I	RF in	RF / TV aerial input
C	HDMI 1	HDMI input	J	HDMI 3	HDMI input
D	HDMI 2	HDMI input (ARC)	K	Earphones	Earphone input
E	L/R	Audio shared for Video/Composite and component/ YPbPr	L	Service Input	Input is used only by service centres
F	Video/YPbPr	Video Input (green) and HD input (Ypbpr)	M	CI card in	Common interface module
G	SCART	SCART input	N	USB 2.0	USB port 2.0

* The Ethernet/LAN port is used for Freeview HD services and smart functions.
